Descriptif

This tour will be a succession of paths, sometimes aerial, sometimes wooded, with passages in front of beautiful houses hidden by the trees. You will also come close to prehistoric sites.

Just after Villebois-Lavalette, notice at a crossroads a mushroom-shaped rock-climbing site, very well known in the world of this discipline (very technical passages). In the village of Gardes-Le-Pontaroux, it is possible to stay at the holiday village (groups welcome).
